

<p>First Year Seminar Jamboree Assessment of Self and Others</p>
----------------------------------------------------------------------

Jamboree is designed to enlist the participation of all first year seminar students. Each class does a project and all students in each class participate. The questions that follow are meant to help you assess your own and others' contributions to the class Jamboree project.

1. What did you contribute to the preparation of Jamboree (ideas, preparation behind the scenes, finding materials, etc.)?
2. What did you contribute to the Jamboree itself (day of the event)?
3. Describe a time you were a leader in our Jamboree project. Also describe a time you were a follower.
4. If you were giving yourself a grade for your work related to Jamboree, what would it be and why?
5. In your opinion, who were three or four people (besides yourself) that contributed a lot of effort and/or leadership in getting our project off the ground? Describe the contributions of those people.
6. In your opinion, who did not contribute to the project? (If everyone contributed well, leave this blank).
