

Article Review Assignment

In a 2-3 page paper, discuss an article related to education. Your review should go beyond personal opinion and should include the following elements:

1. Summarize the article.
2. Discuss what type or genre of article you read.
3. Discuss what assumptions about the nature of knowledge are embedded in the study.
4. Describe the purpose of the article.
5. Discuss whether or not, in your opinion, the article accomplishes its purpose and give evidence that supports your opinion.
6. Discuss how the author shows that s/he belongs to the field and displays his or her knowledge or expertise.
7. Discuss whether there was any bias in the article and, if so, how you recognized it.
8. Discuss whether or not you found the article compelling and why. What are its strengths and limitations?
