

## Aesthetic Response

For this assignment, you will respond to one of the books you have been reading this semester in a way that is rooted in the arts. You may respond to any book you choose. Some possibilities include: write and perform a poem; write and perform a song; create a drawing, painting, or collage; create a comic or graphic novel section; create a diorama; rewrite the ending or write a short story related to the novel; and the list goes on!

We will have class on Friday July 14 at 1PM in Education 102. At that time you will give a brief summary of the book (in case others have not read it) and will present your aesthetic response. You should talk about what this product/project means to you, how you thought of it, how it relates to the book, how it relates to larger themes in the book, etc.
